LeaveMe

Acoustic divider

Edit

The stand and screen are supplied assembled. The base plate is connected by two screws.

Fire safety

The PET felt panels are B-s1, d0 classified.

Durability

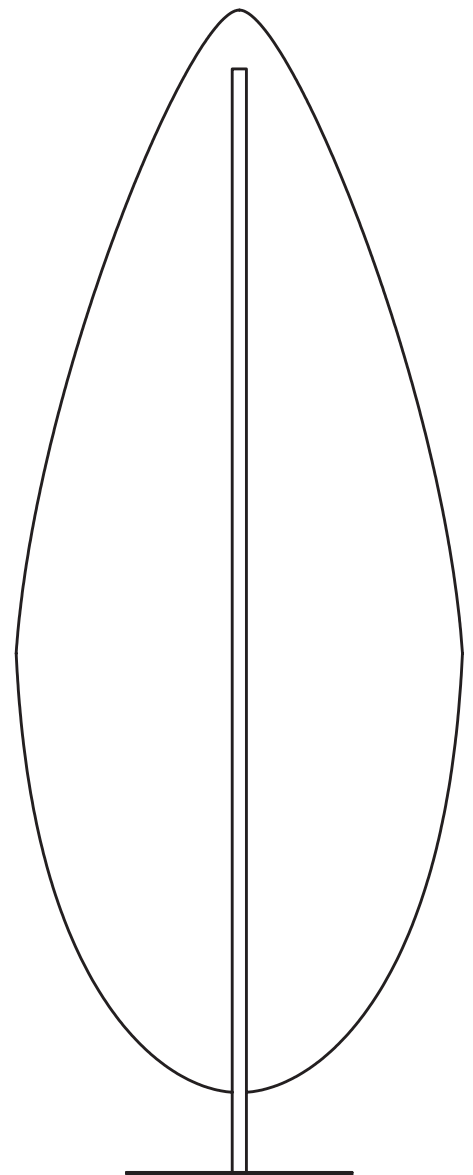

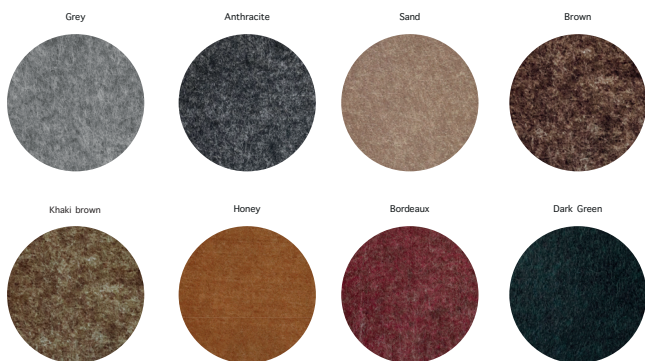

The birch multiplex CP / CP carries the FSC® Mix 70% claim. This means that at least 70% of the wood in these panels comes from FSC-certified forest. The PET material used for the screen consists at least of 50% recycled PET bottles

Application

The LeaveMe contributes to the acoustics in your room and is also applicable as:

- Acoustic screen to prevent sound transmission between workplaces
- Interior design object for visual and acoustic separation
